## High School Teachers Get Pay Raises for 1956-57 Aver. \$474

Minimum \$3,500, Maximum of \$5,400, With Extras Merit Payment

The Antioch Township High School teachers this past week were granted an average \$474 pay raise for the 1956-57 school year.

The Board of Education adopted a revised salary plan submitted to them by a Board-Teacher Welfare committee.

The new salary plan includes an increased minimum scale and various special provisions.

The minimum scale ranges from \$3,500 for beginners with a bachelor's degree to \$5,400 for teachers with a master's degree and eleven years experience.

In addition to the minimum scale the Board of Education recognizes merit and will pay increments beyond the scale. The board is genuinely interested in using the merit clause to encourage the deserving teacher.

One hundred dollars is also allowed for each five years of experience after the maximum salary has been reached on the scale.

A list of special contract increments are a part of the salary plan. Payments are made beyond the scale for phases of the athletic program and girls' athletic association, senior and junior plays, school newspaper, yearbook, ticket manager, student council, and junior class sponsor.

**Pay for Extra Services**  
Six dollars will be paid to each teacher per night for supervision of spectator buses, supervision of junior class concessions, and selling and taking tickets at athletic contests.

The board of Education is continuing the policy of paying \$30 per semester credit earned up to maximum of five hours taken at summer school once every four year period of employment.

Teachers in the Antioch system and new faculty members to be added this fall will benefit from the raise. The adoption of the new salary plan will cost an additional \$24,000.

The Board of Education feels that the revised minimum scale and the improved special provisions will place the high school teaching staff on an equal par with other schools of comparable size, location, and resources of the community.

## L. Villa Rescue Squad Fund Reaches \$1,500; Goal Set for \$5,000

The Lake Villa Rescue Squad fund approximated \$1,500 yesterday on its way to a \$5,000 goal, Winsor Dalgard, campaign chairman announced.

"The contributions are coming in nicely," he said. "All we need to do is to acquaint the people with our needs and the protection it will provide them and they are willing to donate generously."

Harold McCord as captain and Donald Oilschlager as lieutenant, will head the Rescue Squad. Others who are on the squad roster are "Tiny" Awe, John Schuller, Ed Kidger, Jr., Dick Modzinski, the Rev. Gerald Robinson, Willard Schneider, and Fred Beller.

Contributions are to be sent to B. J. Hooper, Lake Villa Drug Store.

Contributors so far are: Ben Snyder, Ed Maeder, Tom Stanton, W. C. Upton, Harry Pavel, Sybil Berkes, James G. Miller, Heating Co., F. Recklein of the Central Baptist Home, Mr. and Mrs. Alfred Hanson, Mr. and Mrs. Clarence Hanson, Tom Wilkinson, Grace Timmersman, Mr. and Mrs. Ralph Sanders.

## Tickets on Sale for Concert of Zion Band At High School Mar. 4

Tickets are on sale for the band concert to be given at the high school by the Zion Concert band Wednesday evening, March 7. John Studebaker is the Zion director.

"We want the public to see and hear a large band and if the people do take advantage of this event I'm sure they will want a band of equal size for Antioch," said William Lahti, Antioch band official.

"There are many who used to play in high school bands and still have their musical instruments who could join in us producing a large and good band as Zion will present," he added.

The Zion band is not making any charge and the nominal admission fee will be to cover expense. A large crowd is desired.

Tickets may be purchased of the band members, at the Antioch News, or Lahti's office at the Shell Oil station.

## Sequoits Beat Zion, Play Ela-V. Friday; Tourney Wednesday

Antioch High Closing Season With Fast Pace; Take Zee-Bees 74-65

The Antioch Sequoits will take on the Ela Vernon Bears here tomorrow evening in the last home game of the season and then will head for Crystal Lake next Wednesday to play Dundee in the first round of the sectional tournament.

Regardless of whether the Sequoits avenge an earlier defeat at the hands of the Bears tomorrow night or not, and this they expect to do, their stock is at new heights as the result of beating Zion Benton here Saturday night.

The 74 to 65 victory stung the Zee-Bees who had not been beaten in the last 13 games, one of which included the mighty Crystal Lake team.

The Sequoits have worked up toward a climax that should send them into the section tournament a strong contender.

Because Grant defeated Fenton at Ingleside 59 to 52 Tuesday night, Antioch must beat Ela-Vernon tomorrow night to gain a fifth-place tie with Grant. The Bears, beaten by Glenbrook last week, are one game out from the championship of the conference.

**Largest Crowd of Season**  
It was the largest crowd of the season that saw Antioch beat Zion-Benton Saturday night. There was standing room only.

The Sequoits were as deadly from all angles of the court as they were from the free throw line in Saturday night's game.

The two teams battled on even (Continued on page 12)

## Mink Breeder's Group Seeking Site for New Food Processing Plant

A group of men from a mink breeders' association attended a meeting of the Antioch village board Friday night gathering information on the possibility of a site for their cooperative processing and storage plant which they plan to build.

They likewise gave information to the trustees on their plans.

The factory site which they are interested in is east of the Soo Line tracks on village property.

Their plan is to process meat and cereals for mink food.

Elmer Herron, spokesman for the mink raisers, told Mayor James McMillen and the board that there would be no slaughtering of any kind at their plant; that the meat and fish would come in frozen and would be in refrigeration when it is mixed with cereal and kept in refrigeration until delivered to the mink raiser.

"We have to keep the food fresh and sanitary, for mink are too valuable to be fed anything but the best," said Herron, who operates a farm north of Brass Ball on Rte. 50 in Wisconsin.

There were about 15 men in the group and they were from McHenry, Lake and Kenosha counties. They were interested in the pure water that Antioch has and the good sewage system. They are visiting other places and have not decided where they will locate.

The association is considering a \$200,000 building and would employ 20 men.

Mr. and Mrs. Henry Schramm and son David of Elgin were weekend visitors of Mr. and Mrs. Anton Johnson of Lake Catherine.

## Mayor McMillen Tells Randolph Commission Septic Tanks Are OK

Use in Rural Area Bad Only When Improperly Made Or Placed

Septic tanks are adequate for rural areas if they are properly constructed in the right type of soil. Mayor James McMillen told the 100 village and county officials summoned to Waukegan Tuesday by the Randolph Commission for opinion on community problems.

Mayor McMillen's statement was in reply to a charge that septic tanks are polluting Lake county streams.

"Most of the pollution comes from septic tanks improperly constructed and in some instances from the lack of them altogether," said McMillen, who says the greatest trouble comes from private sewage disposal units built many years ago where there was no inspection.

McMillen urged that there be standardized inspection of private sewage systems.

Mayor Robert W. Coulson said that most of the sanitation problems come from unincorporated areas and suggested that they be abolished through annexation when the population reaches a certain density.

Robert E. Marriam, assistant to the director of budget for the commission said Coulson's suggestion merits serious thought.

Richard Hire, former mayor of Zion, recalled that Lake County has no health department and that sanitation laws can only be enforced by township supervisors.

The meeting at the courthouse was called by Lake County members of the 21-man commission which will suggest legislation as the result of inquiries such as this.

From Lake Forest came a request for more state and county police.

## Scout Finance Drive Passes Goal of \$700 Chairman Olson Says

The Boy Scout Fund drive went over the top with a total of \$709, Clarence B. Olson, chairman, announced yesterday. The goal was \$700.

Captains and squads of workers were:

Moose—Charles R. Smith, captain; Evelyn M. Smith, Mickey Osborn, Robert Avery, Frank O'Brien, and Arthur Bertolani. Amount collected—\$234.00.

Lions Club—C. E. Keulman, captain; Joseph Patrovsky, Irving Carey, Herbert Carlson, Everett Otfedahl, Loren Sexauer, and A. L. Dittman. Amount collected—\$247.60.

American Legion—George Sterbenz, captain; James Balsamello, and James Horan. Amount—\$234.60.

Felter's Subdivision—N. E. Stofel, captain; Ray H. Eddy, Albert Moore, E. H. Hamelberg, Jr. Amount \$92.00.

Sustaining donors (\$10 or more) are Carl B. Doty, E. H. Hamelberg, Lincoln Petroleum, C. R. Keulman, Drije Chevrolet, S. Boyer Nelson, Reeves Drug Co., The Best Venetian Blind Co., and State Bank of Antioch.

Olson also expressed his appreciation for the work of the captains and their helpers. He said that of each dollar collected 58.8 cents is used for direct service to the communities; 25.9 for general administration; 10.7 cents for camping and activities program; 4.5 cents for leader training and program helps; and 1.1 cent for national service.

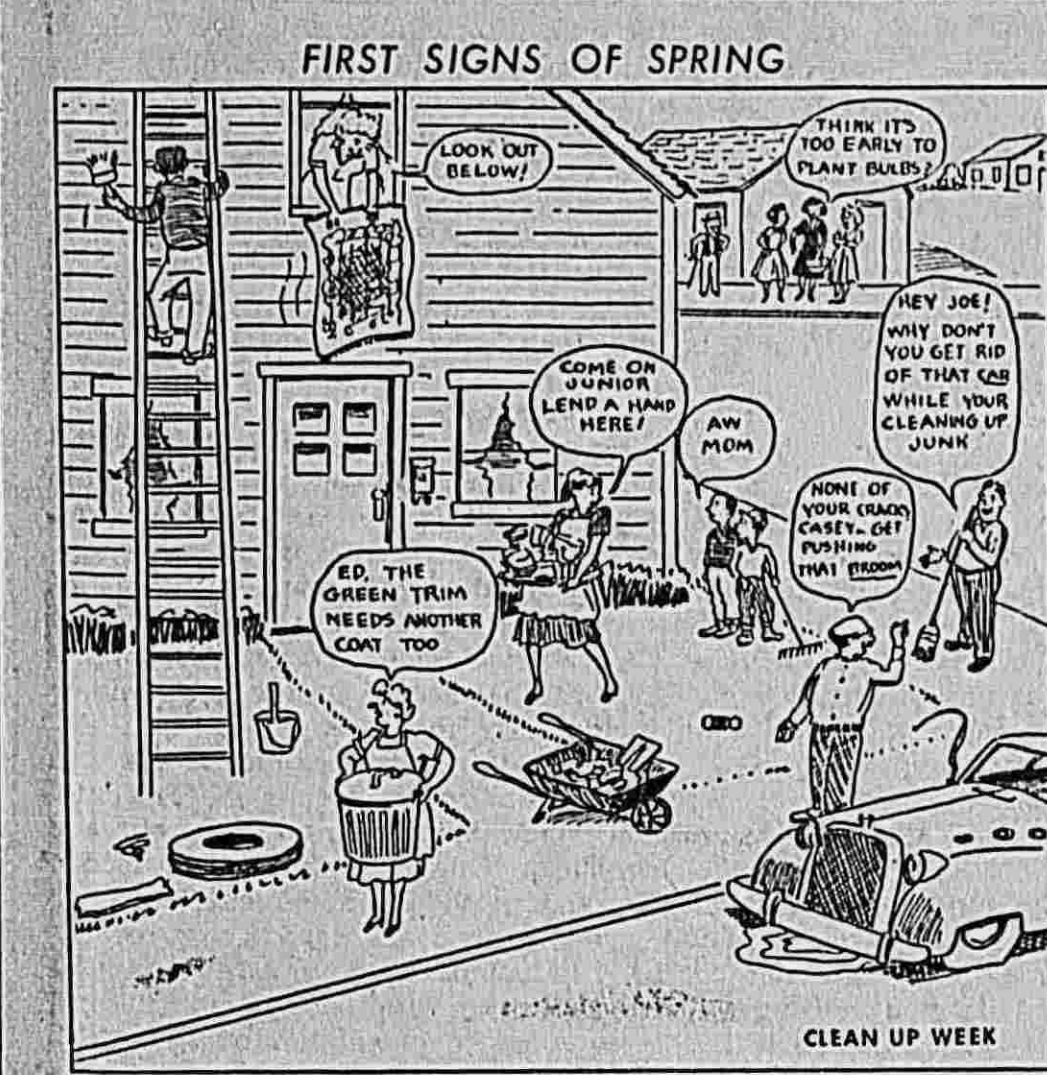

## John W. Jones Dies at Channel Lake Home Burial Was in Chicago

John W. Jones, 68, died last Friday at his home at Channel Lake after a lingering illness.

Born Nov. 14, 1887 in Athens, Ill., Mr. Jones moved to Chicago as a child and lived there until five years ago when he came to Channel Lake. He was employed as maintenance man at the International Harvester Co. in Chicago.

Surviving are the widow, Frieda, a son, Ralph of Palos Park; a stepdaughter, Mrs. Beverly Roberts of Lake Villa; a step-son, Dale Jones of Antioch; a sister, Miss Berle Jones of Chicago; two brothers, Charles Jones of Chicago and Harry Jones of Springfield, Ill.; and three grandchildren.

The body was taken from the Strang Funeral home to 4138 W. North Ave. in Chicago where services were held Monday. Burial was in Bethania cemetery, 7701 Archer ave., Chicago.

## Supt. W. C. Petty to be Honored for 25 Years of Service at Testimonial Dinner March 15

## Crusade for Freedom Fund Here \$120 and Signatures are 2,189

A total of \$120.88 was contributed by school children of the Antioch area to the Crusade for Freedom fund and the number of pupils and students who enrolled was 2,189, the Student Council of Antioch Township High School reported.

The schools and the percentages of their enrollment are: Antioch Grade School—Don Cardiff and Charles Behrendt enrolled 98.9 per cent.

St. Peter's Grade School—Joan Forbrick and Joanne Haydon enrolled 96.8 per cent.

Lake Villa—Lynn Bolton and Alan Moorman enrolled 87.2 per cent. Channel Lake—Robert Cain and Richard Kapell enrolled 93.7 per cent.

Grass Lake—Richard Vlk enrolled 99.1 per cent. Emmons School—Jerry Huml enrolled 22 pupils but report is incomplete.

Hickory School—Rosalie Morris and Mary Tully enrolled 88.33 per cent. They also enrolled 60 per cent of the Millburn pupils.

Those who conducted the drive in the high school were Lenore McCord, Pat Hamlin, Cathie Lense, and Mary Forbrick. They enrolled 82.7 per cent of the students.

## 150 Hunters Bag Only One Fox at Hickory Corners; Hunt Sunday

The old saying that foxes are sly took on special significance to the Antioch Moose Rod and Gun club last Sunday.

One hundred and fifty men carrying shotguns, scoured an area between Rte. 45 and Deep Lake rd. north of Rte. 173 and south of the State Line rd. Sunday morning and while they saw about 20 foxes, they only shot one.

The successful hunter was Michael Hagamann, 4055 Broadway, Chicago, who said that five others had shot at the one he bagged and missed. He received a nice prize for his success.

Another hunt will be staged there March 4 to clear the area of foxes which have become pests to the farmers.

## Tofts Have Baby Girl

A daughter born to Mr. and Mrs. Raymond Toft of Winsor Dr. at Conde Memorial hospital Saturday morning has been named Kathy Lyn. Mr. Toft brought the mother and babe home from the hospital last evening.

## All Aboard for Tourney

Antioch will go in large numbers to the high school regional basketball tournament at Crystal Lake where the Sequoits will meet the Dundee Cardinals at 8:15 p. m. Wednesday in the first round of play.

Spectator buses probably will leave at 6:15 p. m. so that the spectators will be able to see the first game which starts at 7 p. m. Tickets are good for both games that evening. Tickets for the tournament will be on sale at the inner ticket office next Tuesday from 8 a. m. to 4:30 p. m. and Wednesday from 8 a. m. to 3 p. m. M. M. Stillson in charge of ticket sales announced. Antioch was allotted 500 tickets.

## Sale of Pool Bonds Nears Goal as Lions Prepare to Get Bids

Corporation Gets Lease for Site of New Aqua Center at Park

The Lions Corp. Aqua Center bond sale was just \$1,600 away from the goal of \$70,000 last evening.

Officials will open bids on the construction of the pool at a meeting tomorrow evening, confident that the sale will be completed soon.

It is reported that ten bidders will submit figures for construction, which is expected to have a good effect on price.

Because of the illness of the speaker, the meeting of the directors and officers of the Lions Community Service Corp. with a representative from the Steel Pool Co., Berlin, Wis., was not held Monday, but may be held later.

The corporation received its lease from the Village Board on the site for the pool at Williams Park during a special meeting Friday evening.

This paves the way for awarding the contract for the construction of the pool and the start of work on it as soon as weather permits. The committee hopes to have the pool ready for use in June.

## Village Grants Lease for Lions Pool Site; Take Knollwood Rds.

A lease has been granted to the Lions Community Service Corp. by the Antioch Village Board permitting it to install a public swimming pool to be known as the Antioch Township Aqua Center in Williams Park.

The lease was signed in a special meeting of the board with officials of the Lions group last Friday evening.

The corporation will control the pool and operate it as a public institution. It will be situated just north of the Little League baseball grounds and will be quite an addition to the park as a recreation place.

The board in another special meeting last week approved and took over the streets in the third addition to the Knollwood Subdivision. The real estate company will put them in condition through blacktopping as soon as weather permits.

The area is the farthest west in the subdivision.

## Rudolph C. Adler, 69 Great Uncle of Mrs. Robert Markwart Dies

Rudolph C. Adler, 69, of Camp Lake Gardens Subdivision, Trevor, Wis., died at 2:30 p. m. Monday from a heart attack.

He was on his way home from a grocery store, pushing a buggy bearing the daughter of his great niece, Mrs. Florence Markwart, and had stopped to pick the child up and place the groceries in the buggy when he was seen by neighbors to topple over.

The Antioch Rescue squad was called, but first aid methods failed to revive Mr. Adler.

Born March 38, 1886 in Germany, Mr. Adler was 16 years old when he came to the United States and settled in Chicago. He was employed as a private chauffeur at first and later as driver for a bus company. He came to Trevor a year ago to live with his great niece, Mrs. Robert Markwart, a beautician in Antioch who is his only relative.

The funeral service was held at 10 a. m. today at the Strang Funeral home in Antioch with the Rev. Robert Smith of the Salem Methodist church officiating. Burial was in Liberty cemetery.

## Freshmen Win Two Games

Antioch High freshmen forming two teams won both games from Palatine freshmen Saturday. The A team won 75 to 30. Jim Oilschlager with 27 points, 17 of which were made in the first half, was high point man for Antioch. The B team won 50 to 36. High point makers were Bert Metz with 15 and Ray Teml with 13.

## To Buy New First Aid Truck

The Antioch Rescue Squad is planning to purchase a new first aid truck. It would replace the original truck and will give the squad two modern trucks which will provide the greatest efficiency. The old truck will be traded in on the new one, Capt. Herman Holbek said, but the newly formed Lake Villa Rescue squad has been given the option of buying it if they wish.

### If the Postman Passed You By!

Special privilege is something we Americans definitely dislike. But special privilege is an intrinsic part of socialized federal power operations. It is found in the "preference clauses" governing the sale of this power. They provide that the power must first be offered to publicly-owned distributing agencies—while only that which is left over, if any, can be sold to other agencies.

What this amounts to has been well described by a Western power company. Everyone pays taxes to support government plants, but under the "preference clauses" only one person in five—that is, the 20 per cent of the people who are served by public-owned systems—get the benefits from the power produced. The company added, significantly, that last year it paid out nearly 29 cents in taxes for every dollar it took in from its customers—while the federal projects in its state paid exactly nothing in taxes.

Suppose the postman delivered only the mail addressed to government housing projects and passed up everybody who owned his own home? Or suppose government-built highways were limited to the use of motorists who bought gasoline from government-owned service stations? These ideas may strike you as absurd—but they are liberal parallels to what is going on in the socialized power business under the "preference clauses."

In the name of simple justice if nothing else, these clauses should be repealed—and government power sold to all who want it on the same terms and conditions.

### Grass Roots Opinion

NORTH KANSAS CITY, MO., PRESS-Dispatch: "Benjamin Franklin's was the only name signed to all four basic documents of our beginnings: The Declaration of Independence, the Treaty of Alliance with France, the Treaty of Peace with England, and the Constitution. Many of the principles he pro-

mulgated have a particular significance for us today. He stood for local as against federal action; he urged that federal taxes be kept down through thrift and economy. With all his full time activities in science and industry he still found time, when asked to engage in public service for the good of all his country. He was truly a great American."

PERRIS, CALIF., PROGRESS: "If Congress would give more attention to the recommendations of that Hoover Commission for reducing waste which would lower the budget by billions annually we could probably have substantial cuts in debt along with some easing of the tax burden."

WYNNE, ARK., PROGRESS: "It's all right to reach for the moon if we are careful what we stand on to do the reaching."

AZTEC, N. M., INDEPENDENT-REVIEW: "If we could get the politicians as interested in the public welfare as they are in their own welfare we'd have a lot less to worry about."

### Floating Pipeline

"It is amazing how few people in the U. S. realize how truly dependent we are on foreign trade and to what extent foreign trade influences our economy—or to what extent we influence the world economy." That statement was made by Alexander Purdon of the Committee of American Steamship Lines, writing in the New York Journal of Commerce. He implemented it with facts that should be far more widely known than is presently the case.

We are the world's largest exporter and importer. We produce more than half of the total world supply of steel, automobiles, crude oil, and many other products. Our exports amount to \$15 billion annually, and provide employment for about three million people in this country. These exports are not confined to manufactured goods or natural resources—since 1945, the value of our agricultural exports has been equal to one-eighth of our entire farm income.

All of these exports travel by merchant ship—as do the \$10 billion worth of goods, including strategic materials, we import each year from other countries. And that means we are vitally dependent on having and maintaining a first-class U. S. flag merchant marine which would be available under any circumstances.

Luckily for us, to quote Mr. Purdon once more, "Our maritime industry today is able to give better service to our foreign trade than ever before . . . American shipping is the servant—the partner of our foreign trade—our floating pipeline to the markets and materials of the world."

## Accent Beauty of Furnishings with Lighting

Many contemporary homes, built with modern materials and featuring advanced styling, still lack an integral part of their interiors — an adequate number of lighting fixtures. According to Robert W. Minett, Jr., president of the American Home Lighting Institute, the average home built today contains less than \$32 worth of lighting fixtures. A modern home should have at least ten times that amount, according to leading lighting engineers and specialists. Over 80 per cent of all American homes are inadequately lighted, said Minett, who also is vice president of Thomas Industries Inc., whose Moe Light Division is one of the leading producers of residential lighting fixtures.

More and more progressive builders are pointing out that it pays to do a good job of lighting in the home. In so doing, it was pointed out, they help themselves, for the proper selection of lighting fixtures is not only a plus value in selling the house, it also helps to show other advantages of the construction. For showing at night, lighting fixtures add beauty, warmth and sales appeal to any home.

### Transform Dwelling

Of course, when the builders don't put enough fixtures into the house, the homeowner must. Modern, smartly styled lighting fixtures, properly placed, completely transform any dwelling. They accent the outstanding features of the home and add interest and glamour to furnishings and furniture, and make living easier.

Inspiration-Lighting is the name given to a theory of lighting which is being widely adopted by decorators, architects and builders. The theory is borrowed from theater lighting, as used on Broadway and the professional stage. In the theater, lighting is used to focus attention on certain players or props, to supply interesting backgrounds, and even to create moods—dramatic, gay, intimate.

As brought to the American home, Inspiration-Lighting applies to each and every room. In the living room, for example, ceiling fixtures can supply overall illumination, while accent lights call attention to paintings and to the unusual texture of draperies or carpets. Hanging, reel-type lights, which can be alternately raised or lowered for various occasions, can be used for illumination over a dining area or for a conversational corner effect. Accent "spots" will call attention to a fireplace or some other interesting feature of the room.

By lighting the walls you make a room look more spacious; decrease the lighting, leaving the room in semi-darkness, and you have a smaller, more intimate area.

### Outdoor Lighting, Too

Inspiration-Lighting works in the bedroom, too. Ideally, you will have an overhead light for general illumination, adjustable accent fixtures for reading in bed, localized light for grooming and make-up.

Bathrooms and kitchens get their share of attention from the Inspiration-Lighting experts, too. Side and overhead recessed fixtures will make shaving and make-up easier, just as incandescent or fluorescent fixtures over kitchen work areas will make meal preparation easier and more enjoyable.

The theory of Inspiration-Lighting also takes in the grounds around the home. Porch lights, post lanterns, flood or spotlights for lawns, garden, swimming pool — all these add to the attractiveness of a home and its surroundings. Properly lighted, any home becomes more interesting, and more liveable.

## OUT ON A LIMB

By Stumpy McCulloch

A couple days ago, some of us were discussin' ways to raise more money for our country. A feller down the road came up with an excellent suggestion: tax every political speech made in this country.

His plan would take a lot of doing, but it would give us an opening wedge to reduce taxes. A wedge such as this would be important, just as wedges are important in the lumbering of big trees — the kind of trees they grow up in Oregon, Washington and British Columbia. Unlike taxation, however, a wedge used in timber work — following a saw cut — prevents pinching. It makes it easier to complete the cut. In felling trees, a wedge can be used to tip the tree in the desired direction. Maybe an opening wedge is just what we need — for timberin' or politickin'.

Many fellers use wooden wedges in the timber, particularly when they're working with soft woods. Wooden wedges are cheap, and they can be home-made. Hardwood is best: dogwood, ironwood, hard maple and beech. But wedges made from green timber don't stand up very well.

I find it's best to use a wedge that's been cut with a saw. It seems to work better than one shaped with an axe. The roughened surface left by the saw holds better. And it's good to use a wooden wedge with a chain saw. Since the wedge is apt to come in contact

with the moving chain on the back, steel wedges would only damage the saw.

Sometimes, however, if you're workin' a crew in the woods, it's best to use steel wedges. A crew can split a heap of wooden wedges during a day. You can buy steel wedges from any saw dealer or you can have them made up in a blacksmith shop. I've found the best metal wedges are those that are left untempered. If you strike a tempered steel wedge with a tempered steel sledge, the wedge is apt to spall and the flyin' fragments can be dangerous enough to send you to your doctor.

Speakin' of doctors, I knew one once who put a pretty girl in a private hospital room 'cause she had a skinned finger. "She was too cute for wards," was the doctor's excuse.

Did you know that almost ten million acres of good timber were burned in 1953? That's enough wood to build houses for every family east of the Rockies. Still, this was the lowest forest fire figure since 1946, and that's a good sign.

My old friend Hank Leavitt, out in Sacramento, Calif., wrote to tell me that a pal of his was worried

'cause his daughter had taken up with a new doctor in town. But Henry solved the problem. "There's one way to break it up," Henry told him. "Feed her an apple a day."

The responsibility for paying the bill for better roads should be borne proportionally by the users of these roads. It's not fair to saddle the motorists and small truck owner with more than their share. The Chicago Motor Club endorses the American Automobile Association's Better Highways program. This bill proportionally divides the cost of new highways instead of saddling the "little guy" with the burden.

Willard A. Manning, Administrator of the Illinois Veterans' Commission today reminded veterans of World War I, World War II and Korean Conflict that pensions of \$66.15 per month are provided for those qualified.

These pensions are payable to veterans who have a limited income and who are suffering from permanent and total non-service connected disabilities. Veterans over age 65 meeting these requirements are entitled to \$78.75 per month. Age alone does not however qualify a veteran for a pension.

In addition to proof of disability certain employment and income limitations must be met. Veterans desiring further information should contact their nearest Illinois Veterans' Commission office. The Illinois Veterans' Commission will assist veterans, their dependents or survivors in securing any benefits to which they may be entitled.

In Lake county, veterans should contact the Illinois Veterans' Commission Service Office at 221 Washington st., in Waukegan. The office is open daily between the hours of 8:30 a. m. and 5:00 p. m. and on Saturday until noon.

### SAMUEL WITWER HEADS CITIZENS FOR IKE

Samuel W. Witwer, prominent Chicago attorney and civic leader who led three successive Blue Ballot campaigns in Illinois, has been named Illinois State Chairman for the Citizens for Eisenhower organization. Expressing "hope and belief" that President Eisenhower will seek re-election, Witwer announced that plans have already been started to set up headquarters and to seek support from independents and members of both political parties for the Eisenhower campaign.

### Safe Reciprocating Blade Featured in Power Saw

A new type of power saw, portable, easy to handle and safe to use, is gaining rapidly in popularity among farmers, loggers, builders and construction men. Produced by the Wright Power Saw Division of Thomas Industries Inc., this new gasoline-powered saw uses a reciprocating blade principle, revolutionary in the industry. It is said to give "power saw results with hand saw safety."

Pronounced ideal for bucking, limbing, trimming, felling and for construction cutting, this light-

weight saw is usable upside down or right side up, and makes smooth, straight cuts at all angles. The guarded blade faces down and away from the operator, bringing a new degree of safety to the power saw field.

The new Wright saw is handy for homeowners who prefer to do their own trimming and other major cutting jobs, because the light weight makes the saw easy to use even while working on a ladder. Pruning jobs that once took hours can be done in minutes with this versatile tool.

Tests show reinforced tire chains give your car five times as much traction in starting on ice. Chains also bring your car to a halt in less than half the distance it would take without them.

**One Out of Three Women Work.**  
There are more working women today than ever before—21 million with paying jobs. Before the war only 27 per cent worked, in 1955 36 per cent did. At present 30 per cent of married women are working, twice as many as in 1940. The number is rising. Women's jobs are plentiful and young couples need the money to lift themselves in living standards. On the national average, the pay for women's jobs has risen less than men's.

**Two Tons Big**

(It's the Buick SPECIAL — and you really ought to try it!)

THIS is the one that's going to town in a BIG way. And you'll know what we mean when you take its measure — by any yardstick you choose.

By the pound and inch, it's the biggest bundle of high-powered action and high-fashion luxury ever offered in Buick's lowest-priced Series.

By the dollar sign, it's a value so big that Buick outsells every other car in America except two of the well-known smaller ones.

But not till you've put this 1956 Buick SPECIAL to the road can you know what a big-time performer it truly is.

You'll know it by the instant response and purring might of a 322-cubic-inch V8 engine

that's been lofted to new peaks of power and compression.

You'll know it by the flash-away action of a new Variable Pitch Dynaflo\* that steps up getaway and gas mileage in normal situations — and zooms to full-power acceleration for a needed safety-surge when you floor the pedal and switch the pitch.

You'll know it by your complete mastery of a big car that handles like a dream — steers like a wish — and rides like a cloud in the blue.

BIG — that's the word for this Buick SPECIAL...

BIG — coming, going, or standing still...

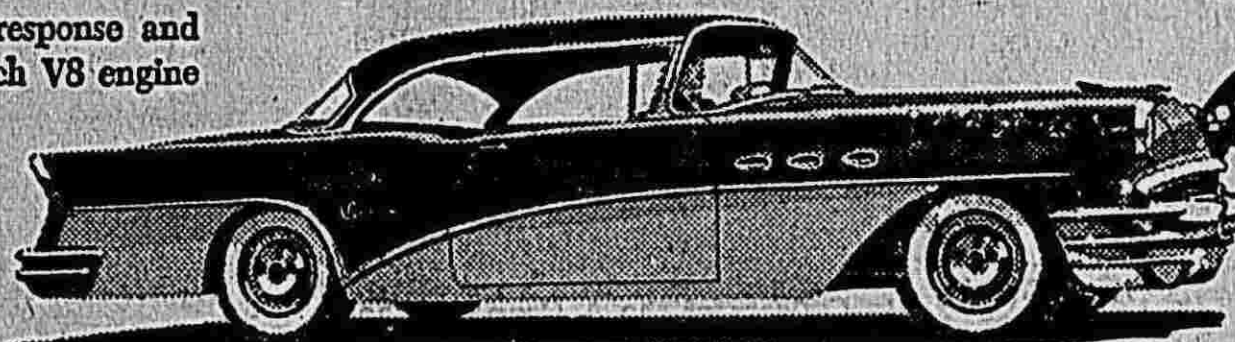

BIG — in its stretch-out roominess — in its sweeping beauty — in its solid steadiness...

BIG, most of all, in the way it makes your money talk...

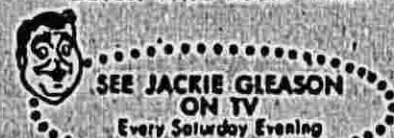

Come in — soon — and let this Buick speak for itself. We think you'll find it sweet listening.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It's standard on Roadmaster, Super and Century — optional at modest extra cost on the Special.

## Mrs. C. Winters Tells Woman's Club of Trip of 350 Club Women

A seven weeks trip abroad by 350 club women and five husbands which covered 20,000 miles and took them to the International Convention of Women's Clubs at Geneva, Switzerland was described by Mrs. Carl Winters of Oak Park at the Antioch Woman's club guest day on Monday afternoon.

The group found that women throughout the world have the same problems as themselves as they convened at Geneva's Peace Palace, last May. They talked about communism, problems of young people including comic books, refugees, liquor and in-law problems.

The extensive tour began at the close of the convention and Mrs. Winters reported that she had seen extremes in live, hate, ugliness and beauty as she traveled by camel, bus, sail boat and plane and ate "everything."

Her talk was entitled "Friends or Foreigners" for she said that it was the desire of these women to prove themselves as friends as they went through 19 countries on three continents. Evidently she was successful, for she had brought with her a stack of letters from those whom she had befriended in various ways.

A large display of dolls from the countries she visited added color to Mrs. Winters' talk.

She felt that everyone should have the experience of visiting a foreign land so that he might know the difficulties of not understanding language and customs as she did.

The Pope and the Duchess of Windsor were among the famous to meet the clubwomen.

After a month of travel together, some of the party went to Norwegian countries but Mrs. Winters and others went to the Holy Land.

She said conditions there were alarming with tensions and poverty and affirmed her belief in the words of Edwin Markham, the poet, who said that "Bread, Beauty and brotherhood are the needs of the world."

Mrs. Winters concluded that she had gained a new sense of gratefulness from her trip, even for a cup of clean water, and that it made her realize that the United States was the hope, dream and passion of the world.

Before her talk, the club voted to buy some bonds for the community swimming pool.

## To Observe Girl Scout Week March 11 to 17

## Mahalia Jackson Will Sing at Gavin School Has Church Sponsors

Mahalia Jackson, the world renowned gospel singer, will appear at Gavin school (corner Wilson rd. and Grand ave.), Ingleside, on Mar. 2, under the sponsorship of the Ingleside Community Church choir.

She has guest starred on The Ed Sullivan Show, Arthur Godfrey's "Friends" Show, The Arlene Francis "Home" Show, starred on her own CBS radio and television shows in addition to many others. She has been featured in six sellout concerts at New York's Carnegie Hall, and appeared in every principal European city not behind the iron curtain.

Miss Jackson has adamantly refused offers of night club and theatre owners and has never been in a night club.

Although she has sung in fabulous halls and magnificent churches the world over, she thrills when her work and travel permit her to return to Salem Baptist in her home town of Chicago to join in the singing.

"God has remembered me all my life," she observes. "I could never forget Him."

## Meeting for DeMolay Organization Was Well Attended Last Monday

The sponsoring body for DeMolay met Monday evening in the Antioch Masonic temple and planned the organization of an Antioch chapter. The meeting was well attended by the boys wishing to join who were accompanied by their fathers.

At 8 p. m. Tuesday, Feb. 28 movies will be shown by a representative of the U. S. Navy. Boys and their fathers are invited to attend. Refreshments will be served.

Further information about DeMolay may be obtained by calling Antioch 216, or Antioch 632-R-1.

## Conference Coaches Meet

Coaches of the Northwest Conference met at Smart's Country House on Monday evening where they worked on spring track, baseball and golf schedules. Football official assignments for next season were submitted by Melvin Elde of Elmhurst, assignment chairman for the conference. Outstanding basketball players were discussed. Pat Rooney of Grayslake is president of the organization and Paul Subject, also of Grayslake, is the secretary.

Carl Laufer

Willard Volling of Round Lake was recently proclaimed county corn growing champion at a banquet held in DeKalb in honor of northern Illinois corn growing champions. His yield of 106.01 bushels per acre was the top yield in Lake county in the 1955 National Selected Five Acre DeKalb Corn Growing contest. He was unable to attend the banquet. Runner-up honors went to Carl Laufer (above) of Barrington with a yield of 85.40 bushels per acre.

Kingston Steam Plant of the Tennessee Valley Authority, at Kingston, Tenn., called by TVA the world's largest steam plant, was dedicated Nov. 17, 1955. This plant will use 4,300,000 tons of coal each year to meet the needs of the Atomic Energy Commission's Oak Ridge installation.

### Wilmot Plays Walworth Tonight in Tournament At Wilmot High School

Wilmot will play Walworth tonight in the sectional basketball tournament at Wilmot, Wis.

The Walworth County team won the right to meet the Wilmot team Tuesday night by defeating Williams Bay 59 to 56 in overtime play. Sharon beat Genoa City by one point in the last three seconds of play in the tournament opener Tuesday and will play Clinton tonight.

Both Wilmot and Clinton drew byes.

The winner of tonight's games will play Friday night and the champion will play the winner of the Union Grove tournament on Saturday night. Next will be the regional tournament.

Wilmot had an excellent season, finishing second in the conference behind Burlington who defeated them last week. The Panthers ended their regular season Saturday night by defeating Central 81 to 50. Ray Arndt led in the scoring with 25 points while Dick Timmer was second with 24.

The Panthers lost but three games this year. Their losses were to Whitewater, Elkhorn and Burlington. This gave them a 15 to 3 season.

### Motor Club Promotes "Write Your Congress" Move for Better Roads

The Chicago Motor club today urged Illinois and Indiana motorists to muster support behind the nationwide "write your congressman" campaign in behalf of the "American Automobile Association Motorists' Program for Better Highways" now under consideration in Congress.

Charles M. Hayes, president of the Chicago Motor Club, said:

"Unless millions of private vehicle owners and drivers take the initiative and write Congress in support of the 'Motorists' Program' it is possible that they will find themselves saddled with an unduly heavy share of the tax increase needed to help finance the program."

During a recent "highway action conference" held recently in Washington, D. C., motor club officials were assured that Federal highway legislation would be acted upon by Congress in the very near future. The conference was attended by more than 100 delegates from affiliated AAA motor clubs in 36 states.

The program, which the Motor club believes merits strong support, calls for a pay-as-you-build financing with all the highway users paying a share of the cost. The AAA suggests that certain Federal excise taxes—those which reflect the amount of highway use—be moderately increased and all of the money collected from these taxes would go for highway construction.

"It is imperative that individual motorists not only inform their congressmen as to the kind and size of highway construction program they want, but to influence friends and neighbors to do likewise," said Hayes.

"Although the need for greatly expanded Federal Aid is obvious, it was revealed at the 'action conference' that one of the principal reasons why no program was adopted last year was because motorists failed to contact their congressmen and express their views on this important subject," Hayes stressed.

The Motor Club official admonished:

"Many 'vested interests' will seek highway legislation that will benefit them and will try to have an excessive share of the cost shuffled to the passenger car owner. That's one reason why the American Automobile Association adopted the Motorists' Program for Better Highways. It is a program in which all groups, interests and the general public can join in support of a greatly expanded Federal Aid construction effort; each to share their proportionate burden."

As outlined by Hayes, the "AAA Motorists' Program" is a balanced program that calls for stepped up construction of both Interstate system and Federal Aid primary, secondary and urban systems.

Concluding, Hayes said:

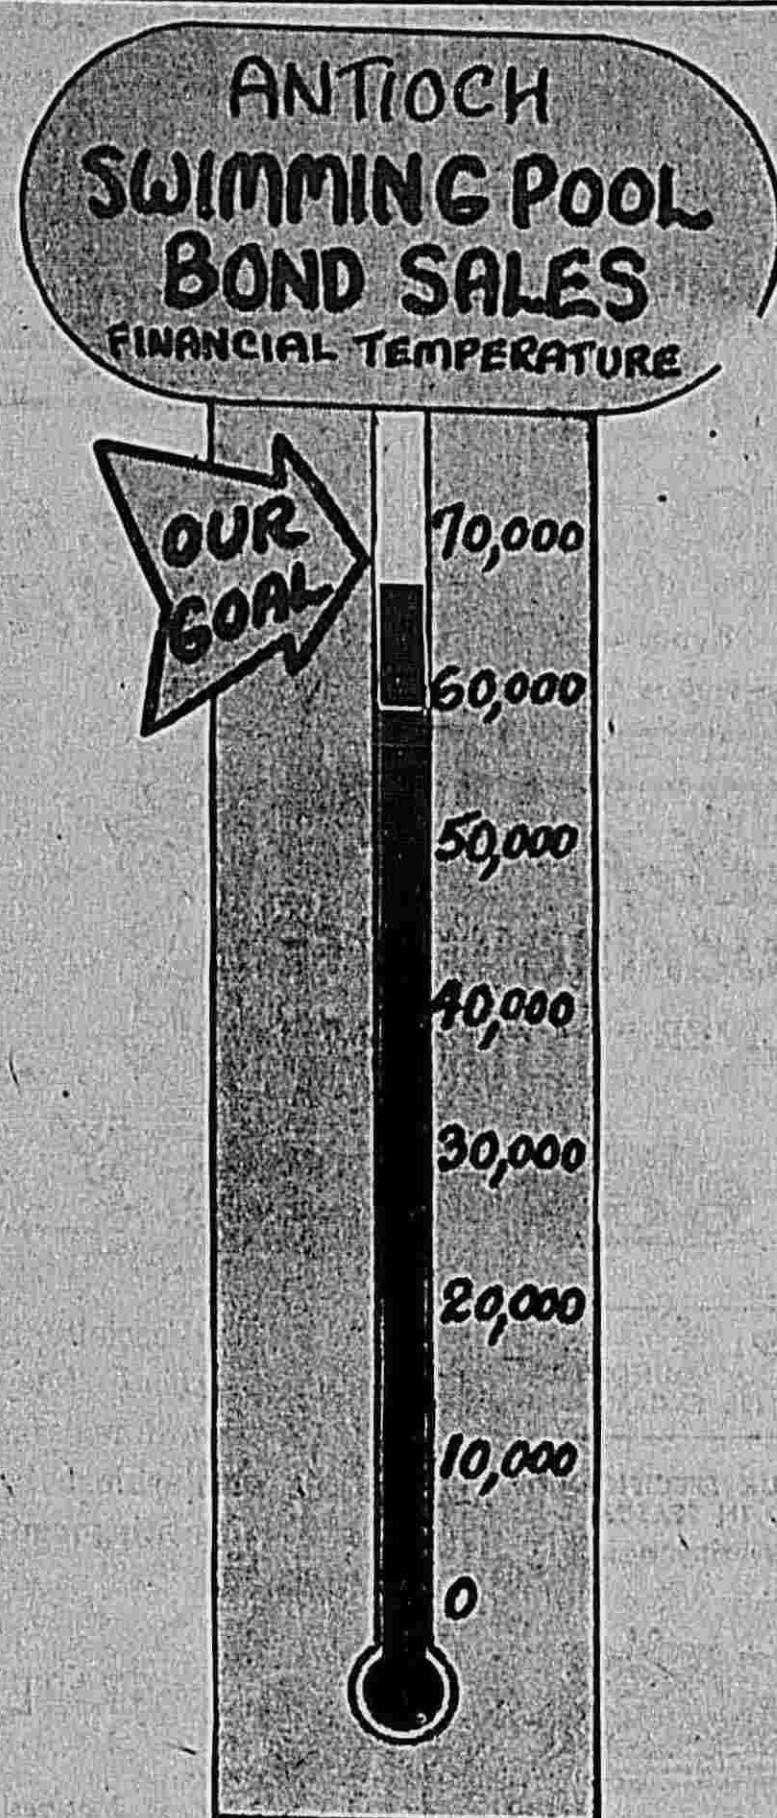

"While no one denies the need for such a progressive step, the method of financing has been a controversial issue. In the 'AAA Motorists' Program' we are certain that we have an equitable and acceptable answer."

Literature explaining the program more fully is available at the Chicago Motor Club, 66 East South Water street, Chicago, or from branch offices throughout Illinois and Indiana.

The Chicago Motor club says that temperature has a big effect on braking distance. Tests show when the temperature is near zero your car doesn't need as much distance to come to a halt as it does when the temperature is near the freezing point. When the temperature gets around the freezing point a watery film often forms on the ice, making it much more slippery. Watch out for these icy spots when the temperature is in the middle thirties!

Protect an outdoor padlock from the weather by nailing a strip of leather on the door so it hangs over the lock, says Successful Farming magazine. Melting ice or snow can't drip into the lock to freeze or cause rust.

### Wadsworth Woman Heads Fund Raising For Education TV

Helen Boller, Box 122, Wadsworth, has been appointed chairman of the fund campaign for Chicago's educational, non-profit television station WTTW, heading up the drive in McHenry and Lake counties except for the towns of Zion, Winthrop Harbor, Lake Bluff, Highwood, Lake Forest, Highland Park and Mundelein.

Preliminary plans for the one-day fund campaign for Chicago's educational non-profit television station WTTW on Channel 11 are well under way according to Mrs. Robert Meany and George Sisler, co-chairmen of the Communities Division of the campaign.

More than 50 communities have indicated participation in the Channel 11 Sunday fund campaign to be held Sunday afternoon, March 11, and leaders in the communities have been appointed. However, with such a large territory to be covered in this one-day drive, it is of utmost importance that a great many volunteers be recruited to make the venture a success, according to the campaign leaders.

It has been estimated that 20,000 door-bell ringers will be needed to cover the major portion of the Chicago area in this drive. Total goal of the drive has been set at \$522,000.00, the amount needed to cover operating expenses for WTTW through the spring of 1957. Almost \$200,000 has already been subscribed by corporations, foundations and others in a special gift drive with the balance to be raised by public subscription.

Volunteers wishing to assist in this fund campaign are asked to write or visit the Channel 11 Campaign office at 38 South Dearborn st., Chicago, or call Financial 6-5230.

Expressways through urban areas can cost up to \$16 million a mile. The Chicago Motor Club says that the best way to insure rapid construction of superhighways is by supporting the American Automobile Association's Program for Better Highways.

## Warning to Mortgage Borrowers

Be wary if the mortgage company tells you that you must buy insurance on your house from the company's insurance branch. You don't have to. The mortgage company can require you to carry insurance, but you are free to get it from an insurance company of your own choosing. Reason for the warning is that complaints against tie-in practices are on the increase.—Changing Times.

## Sequoits Beat Zion.....

terms in the first two quarters, Zion leaving the court at the end of the first half leading 37 to 36.

During the third quarter the Sequoits held the ZeeBees to six points while bombarding the basket for 22 points, and held a 58-43 advantage at the end of the quarter. Zion fought back gamely in the fourth period and were within six points of a tie when three baskets by Sid Parker and six free throws by Frank Walsh put the game on ice. Antioch controlled both boards and established a tight defense just inside the midfloor line that gave the visitors little opportunity for their set shots.

Pacing the well rounded offensive of the Sequoits was Walsh with 18 points, 10 of them from the free throw line, while Gerry Huml, Sid Parker and Al Reckers each checked in with 16. Though the Sequoits finished with a 24-23 edge from the field, this game actually was decided from the free throw line, where Antioch converted 26 in 33 attempts. Zion hit 19 from the charity line, but missed 14—seven of them first attempts.

In a preliminary Saturday night the Antioch frosh-soph team defeated the Zion sophomores 46 to 37. Zion led at the half 26 to 20, but in the third quarter Antioch took command. That Antioch has a well balanced club is shown by the scoring of the starting lineup. Jerry Horton scored 12 points; Art Hanke, 11, Bob Polson, 7, Roger Lang, 7, and Frank Ferdon, 7. Two points were made by a substitute.

Blend Price of \$3.60  
Paid Milk Producers  
For January Delivery

Chicago—Prices were announced by the Milk Market Administrator here today for milk delivered to the Chicago market during January.

A blend price of \$3.60 a hundred-weight will be paid for milk testing 3.5 per cent butterfat and delivered to the 70 mile zone.

This price is 9 cents below the December 1955 price but 13 cents above the price for January of last year.

While the farm price returned about 8 cents a quart to the dairy farmer, milk companies paid a higher price of around 8.5 cents a quart for the milk they used in bottling.

The farm price is continuing the yearly cycle of milk prices from a high in October and November to a low in May, said Harry Edwards, head of the marketing department for Pure Milk Association.

Since May 1955 the milk prices have been keeping substantially higher than the previous year. Whether they continue to be higher will depend a great deal on the amount of milk that is produced during the coming months, Edwards said.

He indicated that there was 4 per cent more milk produced in January, 1956 than January, 1955. If production should continue to increase it would have a depressing effect on the price, Edwards said.

So far no increasing trend in milk production has developed. January was 4 per cent over a year earlier; December 1955, 4.1 per cent over December 1954; November 3.7 per cent and October 4 per cent over the previous year.

Not all of the increased production of milk goes into the surplus market, Edwards said.

The increase of 4 per cent amounts to about 15 million pounds over January 1955. An increase of sales of fluid milk used around 8 million more pounds of milk in January 1955. Increased fluid cream sales took another 2 million pounds of milk.

## Will Be Honored at Banquet

W. C. Petty of Antioch will be honored by county and state school men on March 15 at a banquet at Hank's Supper Club near Waukegan in recognition of his 25 years of service as county superintendent of schools.

To pay the state's bills requires the office of State Auditor Orville E. Hodge to write 16,000 checks each working day.

Clymer, Pa., claims Arthur Godfrey not as a native son, but as one who once worked in the area's coal mining industry for about a year.

To remove screws that are covered with repeated coats of paint, heat the blade of the screwdriver, and quickly set the blade into the head of the screw suggests the February issue of Successful Farming magazine.

When making small-grain solage, cut the small grains between the "boot" and milk stage, the earlier the better, says Successful Farming magazine. Protein is higher and the moisture and the higher-moisture material packs better.
